## PERSONAL STATEMENT

I'm an experienced and optimistic 58 years old woman, who took the decision to start a new life in a lovely city as London is.

Although my knowledge of the English language it's quite basic I'm very curious and willing to learn as much as I can, and as fast as I can! I'm practicing daily, at home, at the courses and with people met in my journey, so I believe that soon I'll be able to speak at least an understandable English.

I'm very enthusiastic of this new amazing life and I'll do my best to improve my skills, and I'm more than happy to share my experience and knowledge gained through my life with you and your team.

If I should describe my strength, I would say that my resilience it's my best quality, I never give up! In this situation my scariest weakness it's my loss of knowledge of the language, but, as I said, I never give up!

I don't feel I can provide an excellent service in roles where good communication skills in terms of customer service are required, but I hope that the reader of this CV would understand from few words that I'm the kind of person who would suit any role available in a backstage, and would kindly contact me for an interview. I'm a hard worker, and I do my best, always.
